

Excellence by Design

Secure. Modernize. Accelerate.

Silotech Group delivers secure, mission-ready technology solutions that strengthen cyber resilience, modernize enterprise operations, and accelerate decision advantage across Defense, Federal Civilian, Commercial, and High Education organizations.

As a cleared, Woman-Owned Small Business (WOSB) and Service-Disabled Veteran-Owned Small Business (SDVOSB), we combine deep technical expertise with proven execution across cybersecurity, digital transformation, artificial intelligence, managed services, and systems engineering.

CORE CAPABILITIES

Cyber Operations Support

Delivering end-to-end cybersecurity operations that protect mission systems and critical infrastructure.

- Risk Management Framework (RMF)
- Defensive & Offensive Cyber Operations
- Network Defense
- Penetration Testing
- Security Engineering
- Forensics
- Incident Response
- Security Assessments
- Continuous Monitoring
- Training & Readiness

Digital Transformation & Modernization

Helping agencies modernize legacy environments through secure cloud technologies, application modernization, automation, and enterprise integration.

- Cloud Migration
- Cloud Engineering
- Infrastructure Modernization
- Low-Code / No-Code Solutions
- Application Development
- Enterprise Integration
- API Security
- Data Visualization
- Human Performance Optimization
- Systems Engineering

Emerging Technologies, Research & Development

Developing next-generation technologies that improve operational awareness and accelerate mission execution.

- Artificial Intelligence
- Machine Learning
- Data Science
- Autonomous Decision Support
- Quantum Cybersecurity
- Zero Trust Architecture
- 5G Security
- IoT Security
- Blockchain
- Mobile Threat Defense
- Advanced Analytics

Managed IT & Security Services

Providing scalable managed services that improve security, availability, compliance, and operational efficiency. integration.

- Cloud Migration
- Cloud Engineering
- Infrastructure Modernization
- Low-Code / No-Code Solutions
- Application Development
- Enterprise Integration
- API Security
- Data Visualization
- Human Performance Optimization
- Systems Engineering

Featured Innovation: XC3

Silotech's AI-enabled mission execution platform is currently supporting a Phase III Small Business Innovation Research (SBIR) effort, transitioning advanced AI capabilities from research into operational use. XC3 accelerates decision-making through intelligent data integration, workflow orchestration, and mission-focused visualization.

SMALL BUSINESS DESIGNATIONS

Woman-Owned Small Business (WOSB)
Service-Disabled Veteran-Owned Small Business (SDVOSB)

SPECIALIZED SOLUTIONS

Salesforce Consulting

Silotech delivers expert Salesforce consulting, implementation, integration, and modernization services for Federal and Commercial organizations.

Services include:

- Salesforce Implementation
- Experience Cloud
- Service Cloud
- Government Cloud
- Integration Services
- Workflow Automation
- Custom Development
- Managed Salesforce Support

Value Added Reseller (VAR)

Mission-ready technology procurement supported by trusted OEM partnerships.

- Hardware Procurement
- Software Licensing
- Systems Integration
- Secure Supply Chain
- Technology Refresh
- Asset Management
- Deployment Services
- Lifecycle Support

CMMC Level 2 Services

As a CMMC Level 2 Certified organization, Silotech helps organizations strengthen cybersecurity maturity and prepare for Department of Defense compliance.

Capabilities Include:

- Gap Assessments
- POA&M Development
- Compliance Roadmaps
- Security Remediation
- Policy Development
- Continuous Compliance Support

WHY SILOTECH GROUP

Proven Federal Performance

Supporting mission-critical operations across Defense, Federal Civilian, Intelligence, and Commercial sectors.

Innovation That Transitions

Delivering research-backed technologies that move beyond prototypes into operational capability through successful SBIR Phase III transition.

Mission-Focused Cybersecurity

Protecting critical systems with modern cyber operations, Zero Trust strategies, and secure engineering.

Trusted Modernization Partner

Helping organizations modernize infrastructure, applications, and data environments while maintaining operational continuity.
